

Sustainable future together

More than 15 since 2021

Environmental initiatives

Initiative "Yashil Toshkent "

150 Trees
600 Bushes

Transition to renewable energy

Installed panels: 222 pcs.
Annual generating capacity: up to 240 MWh

Coming up: Clean up Uzbekistan

Organizers: Akfa, Imzo, Benkam.

Partners: Yangihayot, EUROUZ, Breathe Tashkent

We not only plant them but
We take good care of them

More than 10, since 2021

social activities

"Mehar"

2021: Financing establishment and construction of Shelter
2021 – current: Sponsorship
2024: Financing reconstruction and expansion

"Sen yashaysan"

Funding for surgeries for children with congenital heart disease.

Ensuring good health and well-being of employees and society

Conducting sports and talent competitions among employees
Rewarding active employees

Providing financial support to people in need
Student programs

Mehr shelter needs your support!

At AKFA Group, we introduced the “Mehr” dog shelter in 2021 with an initial investment of \$2.5 million. Since then we sponsored the shelter to provide for its needs and recently sponsored expansion of the complex to accommodate more dogs. We will continue to provide funds to Shelter every year.

However, our current sponsorship now only covers 10% of the shelter's yearly needs.

We invite Companies and individuals to join us in supporting “Mehr” dog shelter by contributing to its yearly operational expenses. Your support will ensure the shelter can provide vital care and love to dogs in need.

Plans ahead

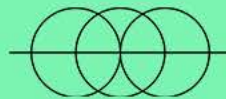

**Increasing the share of
renewable energy
sources to 50% by 2030**

**Reducing the carbon footprint by producing
certified environmentally friendly Green-EX
products**

**Bringing the number of plants
planted at least to 5,000 units
by 2030**

GREEN-EX[®]

BENKAM part of  **akfa**

> 18 kg

Average global CO2 emission per 1 kg of aluminium profile produced

GREEN-EX

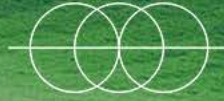

9 kg

Average CO2 emission per 1 kg of Green-ex aluminium profile produced

RE GREEN-EX

< 5 kg

Average CO2 emission per 1 kg of ReGreen-ex aluminium profile produced

Net ZERO by 2050

Benkam is committed to Net Zero by 2050 and working actively on reducing Scope 1 and Scope 2 emissions.

Green-Ex and REgreen-Ex low carbon aluminium with care of environment

low carbon

9 kg CO₂e/1kg AL – Green-EX

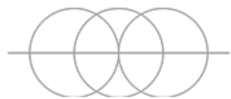

<5 kg CO₂e/1kg AL – ReGreen-EX

environmental

Reducing carbon emissions from your products is important because it mitigates the effects of global climate change, improves public health, boosts the global economy, and maintains biodiversity.

win projects easier

Using Aluminum profiles Green-Ex and REgreen-Ex allows to go to projects easier as most of the clients are willing to source from greener sources

GREEN-EX®

9 kg and reducing

Aluminum profiles Green-EX are produced with less 9.0 kg of CO₂e for every kg of aluminium profile, including both direct and indirect (Scope 1 and Scope 2) emissions from mining, refining, smelting and casting, extrusion and fabrication.

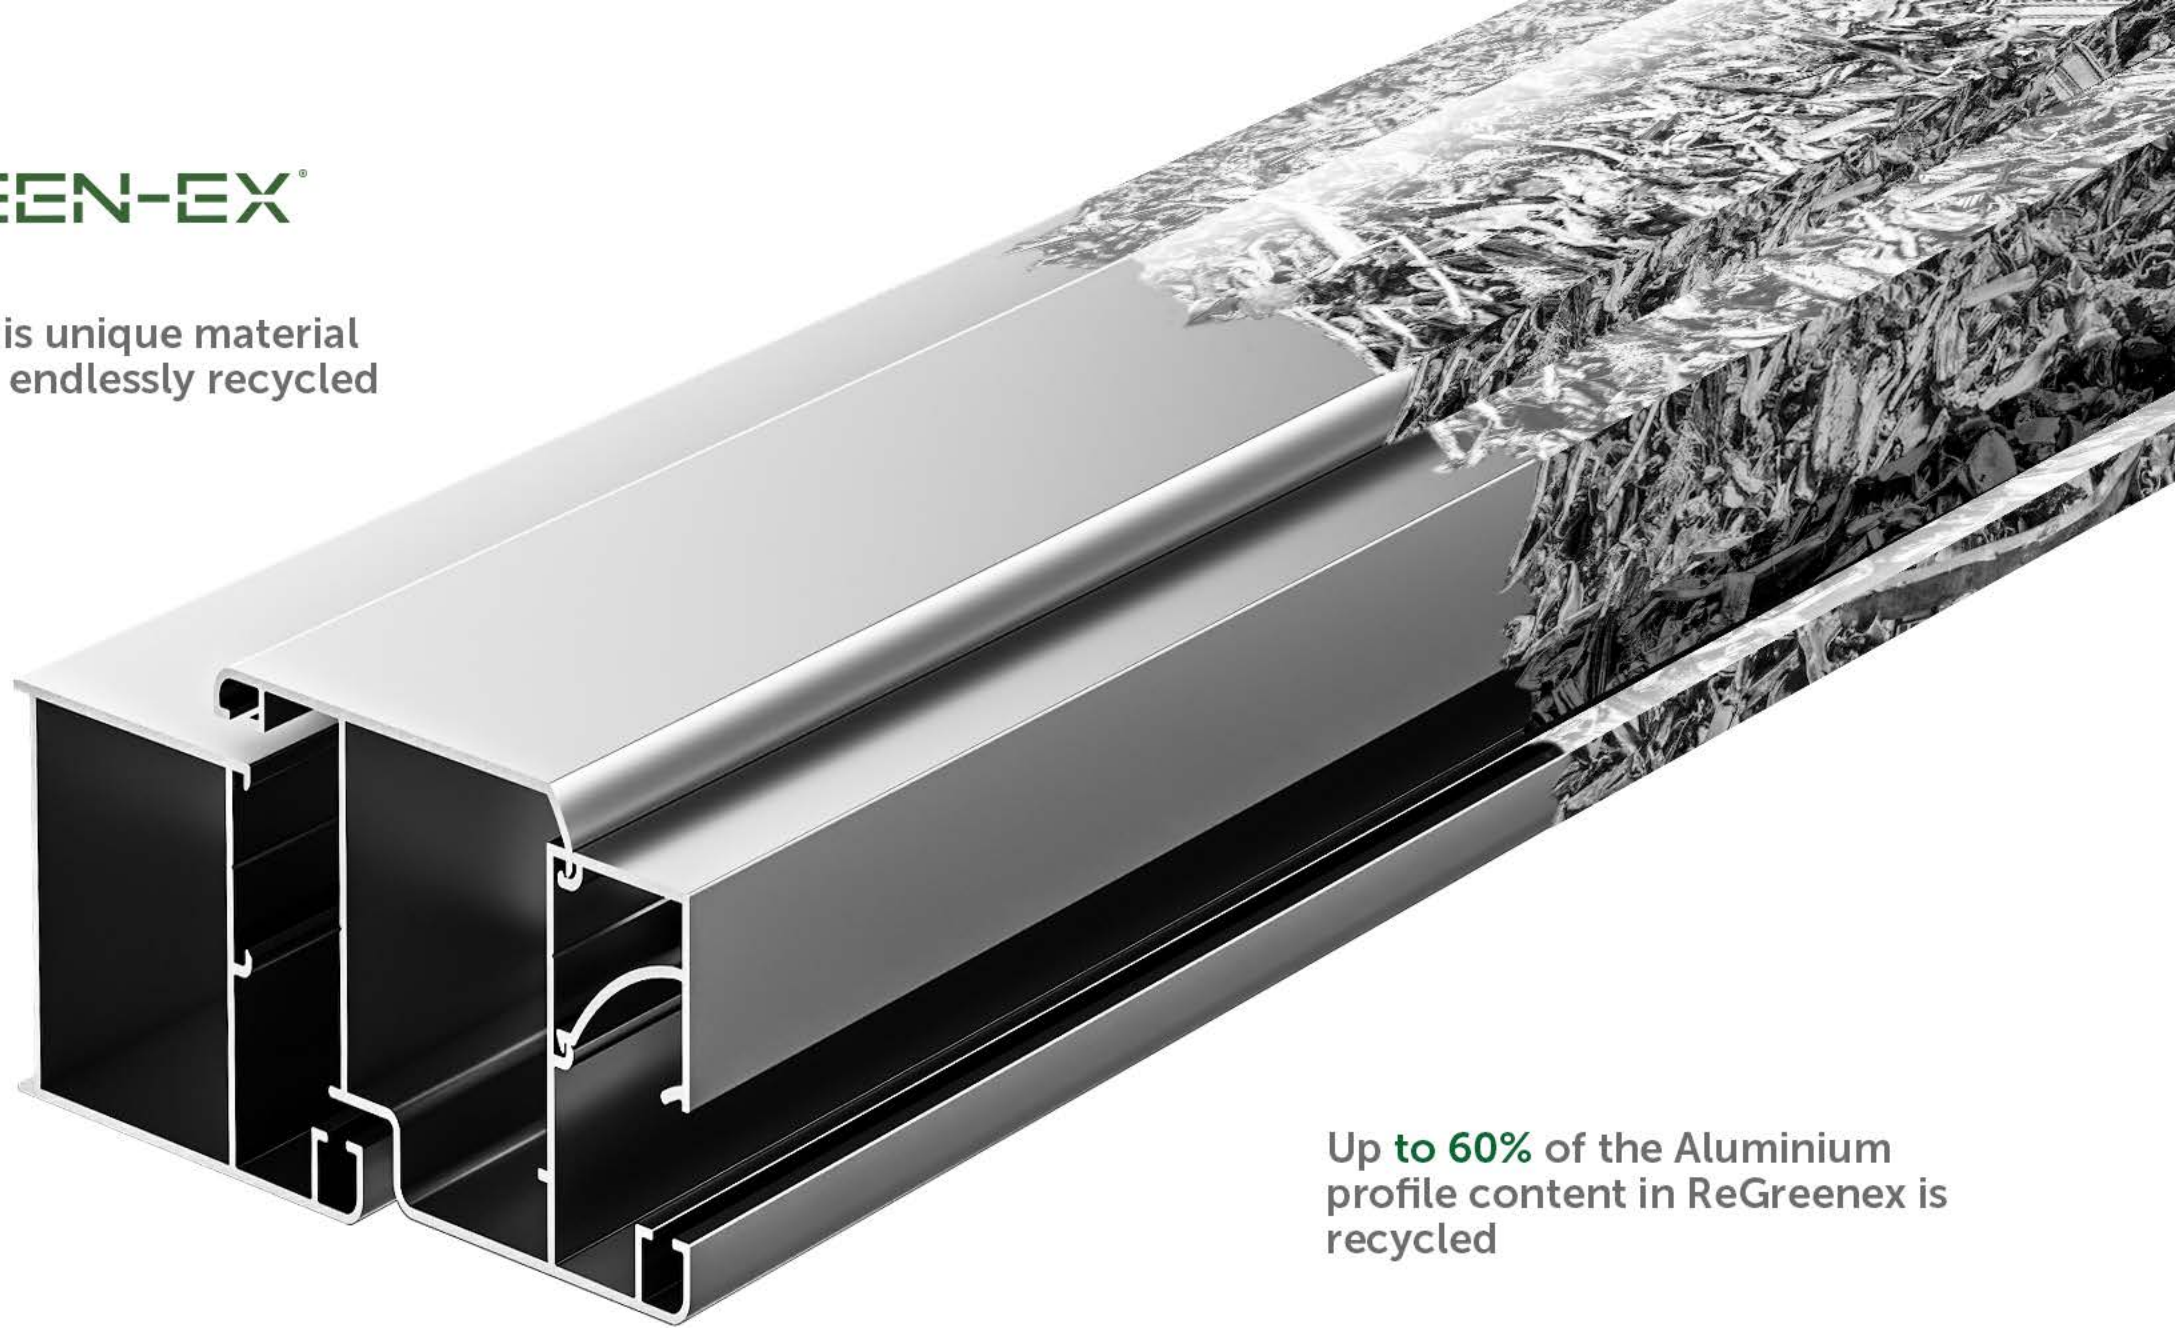

The **Green-EX** line of environmentally friendly aluminum profiles from BENKAM is distinguished by the fact that the entire supply chain, from raw materials to delivery, is thoroughly tested for compliance with environmental requirements.

With Green-EX our customers can significantly reduce the carbon footprint of their premium products

RE GREEN-EX®

Aluminium is unique material
that can be endlessly recycled

Up to **60%** of the Aluminium
profile content in ReGreenex is
recycled

RE GREEN-EX

> 50%

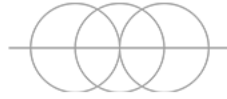

More than 50% recycled content

> 70%

70% less CO₂e emissions compared to average footprint of aluminium profile production

5%

Aluminium recycled only requires 5% of the energy used to produce primary aluminium

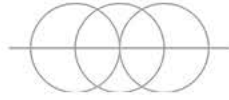

Industry partnership and certificates

Benkam is ASI Production
and transformation member
